Tradition, alive and evolving.

CAMPANIA / FOLK / WORLD

Vesevo weave the musical traditions of Campania and southern Italy with original compositions. Voice, violin, guitars and percussion shape a distinctive sound: grounded in the Mediterranean, yet open to the present.

On stage, songs unfold through improvisation and the musicians' interplay. The audience becomes part of the experience as rhythms shift, arrangements open up and the music makes room for connection. Vesevo have brought this sound to international stages including WOMAD and the BBC.
